## **COMPANY PROFILE**

### **Introduction**

Bags and Balers Manufacturers (K) Ltd is a limited liability Company incorporated in Kenya on 13th May 1996.

### **Scope**

Bags & Balers Manufacturers (K) Ltd is a leading manufacturer of Multi-Wall Paper Sacks used in bulk packing of tea, cement, flour and seeds.

Our Customers comprise of KTDA which is the largest black tea producer and exporter in the world, Finlays which is a large multinational Company with worldwide operations, Mombasa Cement etc.

We have been major suppliers of cement bags to East Africa Portland Cement Co. Ltd and have in the past supplied cement bags to Hima Cement of Uganda among others.

We also supply Kenya Seed Company in Kitale, a Government entity mandated to produce and market the seed requirement in the country just to name a few.

In addition, we handle SO (self-opening) bags which are used in packaging of goods in supermarkets and groceries.

## **Technical and Technological Capabilities**

Our specialized machinery is manufactured by Windmoller&Hollcher GmbH of Germany, who are the leading manufacturers of Paper converting machinery in the world. They provide backup services, spares and technical support as and when required. Our machinery is capable of 4 color in-line flexo-printing, tubing and bottoming. Our main engineers, supervisors and senior operators have been trained by the manufacturers and undergo regular further training through short courses and workshops.

For the multiwall paper sacks, we have two lines capable of supplementing each other hereby providing steady production thus able to execute large orders expeditiously.

Our dedicated baler machine with in line printing, tubing and bottoming function is able to produce large volumes of balers ranging from single ply up to a maximum of 4 ply.

Our SO (self-opening) bag machines are also able to produce large volumes of small packets used in packing of flour and seeds amongst other products.

### **4 Ply Cement Bags**

Over the years, we have been supplying a lot of quality 4 ply cement bags to our customers in Kenya and the region.

### **2 Ply Tea Sack**

Bags & Balers Manufacturers (K) Ltd was the pioneer in developing the 2-ply configuration of Teasack way back in 2008.

This brought a great saving from the 4-ply tea sack that was in use at that time.

We are pleased to inform you that to date Bags & Balers Manufacturers (K) Ltd has delivered in excess of 40,000,000 Tea Sacks (in a period of 19 years with KTDA and other private Tea factories in the region) with an impeccable record.

This proves that all our product has been consistent over the period we have been in business.

### **ISO 9001:2015 Certification**

We are ISO 9001 certified since year 2000.

We are now pursuing the FSSC 22000 FSM certification alongside ISO 9001 certification.

### **Patent Ownership**

Bags & Balers Manufacturers (K) Ltd was the first Company in Kenya to be granted a patent for Open Top Tea Sacks (Patent Certificate KE 87 attached).

### **Stocks and Delivery**

We always maintain adequate stocks of high quality raw materials imported from reputable mills in the world. Hence ensuring continuous deliveries large or small as and when required.

**BAGS AND BALERS MANUFACTURING (K) LTD IS A LEADING MANUFACTURER OF ENVIRONMENTALY FRIENDLY BAGS MADE FROM RENEWABLE RESOURCE**
